

# ROMANIAN CONGRESS of RADIOLOGY and MEDICAL IMAGING - BUCHAREST, 2013

## PRECONGRESS COURSES

### Thursday, October 10, 2013

#### **STROKE**

09.00-10.00	MRI in acute stroke	M. Tisserand	Room 1
-------------	---------------------	--------------	--------

#### **10.00-10.30 Coffee break**

10.30-12.30	Diagnostic and interventional imaging of acute stroke	F. Ricolfi	Room 1
-------------	---	------------	--------

#### **12.30-14.00 Lunch**

#### **LIVER**

14.00-15.30	Intraarterial chemotherapy in the treatment of hepatocellular carcinoma – present and future	D. Krause et al.	Room 1
-------------	--	------------------	--------

#### **15.30-16.00 Coffee break**

16.00-17.30	Percutaneous ablation of liver tumors	F. Boudghene	Room 1
-------------	---------------------------------------	--------------	--------

## CONGRESS PROGRAM

### Friday, October 11, 2013

09.00-10.30	SRIM – sesiune plenara (Adunarea Generala – amendarea statutului SRIM)		Room 1
-------------	--	--	--------

#### **10.30-11.00 Coffee break**

<b>11.00-13.00</b>	<b>MSK-knee: from clinical sign to image</b>	<b>V. Ene, I. Codorean</b>	<b>Room 1</b>
11.00-11.30	Pitfalls and accuracy of Cartilage evaluation on MRI. Correlation with arthroscopy and comparison of 1.5 and 3T MRI	J. Gielen, P. Van Dyck	
11.30-11.50	Cartilage Injuries - Orthopedics point of view	G. Dinu, B. Nistor	
11.50-12.20	Pitfalls and accuracy of Meniscal evaluation on MRI. Correlation with arthroscopy and comparison of 1.5 and 3T MRI	J. Gielen, P. Van Dyck	
12.20-12.40	Clinical significance of bone marrow edema at the knee in degenerative and overuse situations	J. Gielen, P. Van Dyck	
12.40-13.00	Meniscal Injuries - Orthopedics point of view	G. Dinu, B. Nistor	

<b>11.00-13.00</b>	<b>Correlation between clinic signs and imaging findings in organ pre- and post-renal transplants</b>	<b>I.G. Lupescu, I. Sinescu</b>	<b>Room 2</b>
11.00-11.25	Thirty Tree years of renal transplantation in Fundeni Clinical Institute	I. Sinescu, M. Harza	
11.25-11.45	Ultrasonography in the assessment of renal graft disease	S. Ducea, M. Lucan	
11.45-12.05	The Role of Sectional Imaging in the Assessment of Renal Transplantation Donors and Receivers in Fundeni Clinical Institut	R.A. Capsa et al.	
12.05-12.30	Correlation between clinical signs and imaging findings after renal transplantation	O. Helenon	
12.30-12.50	CT and MRI diagnostic value of renal post-transplant complications- experience of Fundeni Clinical Institute	I.G. Lupescu et al.	
12.50-13.00	Final discussions and conclusions		

<b>11.00-13.00</b>	<b>Neuroradiology</b>	<b>G. Iana, S. Sfrangeu</b>	<b>Room 3</b>
11.00-11.20	Avoiding pitfalls in diagnosis of acute ischemic stroke on CT: optimal window settings, a pictorial review	B. Dobrovat et al.	
11.20-11.40	MRI aspects with clinical correlations in cerebral venous flow abnormalities	M.T.A. Buzan et al.	
11.40-12.00	Particular neuroimaging aspects in pediatric tumors	D. Habu et al.	
12.00-12.20	The role of MR tractography in pre-surgical planning	B. Iliescu et al.	
12.20-12.40	Imaging considerations in brain gliomas	S. Manole et al.	
12.40-12.55	Superior cerebellar artery ruptured aneurysms treated endovascular and neurosurgical – case discussions	S. Dima	
12.55-13.00	Discussions		

<b>11.00-13.00</b>	<b>Imaging in pathologies of head and neck region</b>	<b>D. Habu, V. Popita</b>	<b>Room 4</b>
11.00-11.20	CT and MRI findings in neoplasms of the oral cavity	D. Habu et al.	
11.20-11.35	Imaging of the massive facial trauma	M. Iordache et al.	
11.35-11.50	Maxillary sinus anatomic and pathologic CT findings	E. Dragan et al.	
11.50-12.05	Cone beam computed tomography: diagnosis and management of impacted maxillary canine compared with conventional radiographic methods	O. Ladunca et al.	
12.05-12.25	Vascular masses of the head and neck region	V. Popita, A. Santa	
12.25-12.55	The use of the new investigation techniques in the clinical diagnostic of brain and abdomen pathology: overview of GE sequences with their clinical applications and clinical examples	F. Preoteasa	
12.55-13.00	Discussions		

<b>13.00-14.30</b>	<b>Lunch</b>		
--------------------	--------------	--	--

<b>14.30-16.00</b>	<b>MSK-knee: from clinical signs to image</b>	<b>V. Ene, F. Birsasteanu</b>	<b>Room 1</b>
14.30-15.00	Postoperative meniscal imaging – our experience	S. Ghiea et al.	
15.00-15.30	Knee off the beaten pattern	R.A. Manoliu	
15.30-16.00	MRI evaluation of associated osteochondral contusions in acute ACL tears	I. Codorean	

<b>14.30-16.00</b>	<b>Correlation between clinic signs and imaging findings in organ pre- and post-hepatic transplants</b>	<b>I.G. Lupescu, I. Popescu</b>	<b>Room 2</b>
14.30-14.50	Living donor liver transplantation in Romania: current status and future trends	V. Brasoveanu et al.	
14.50-15.10	Imaging examination in pretransplant hepatic evaluations	M. Boros et al.	
15.10-15.25	The role of ultrasonography in the dynamics of hepatic post transplant patients monitoring	O. Marica et al.	
15.25-15.45	What must the radiologist know about CT and MRI diagnostic in liver posttransplant complications? - experience of Fundeni Clinical Institute	I.G. Lupescu et al.	
15.45-16.00	Percutaneous transhepatic management of biliary complications after liver transplantation	M.C. Grasu et al.	

<b>14.30-16.00</b>	<b>Interventional radiology</b>	<b>B. Popa, G. Iana</b>	<b>Room 3</b>
14.30-15.00	Transcatheter arterial chemoembolisation of intermediate stage hepatocellular carcinoma with drug eluting beads under cone-beam computed tomography control	P. Popovics	
15.00-15.10	Actualities in liver chemoembolization with DC Beads – retrospective study	B. Popa et al.	
15.10-15.20	Lower gastrointestinal bleeding – etiology, therapeutic management	L. Gulie et al.	
15.20-15.30	Endovascular treatment of unruptured abdominal aorta aneurysm	B. Dorobat	
15.30-15.40	Transjugular intrahepatic portosystemic shunt recanalization – indications and technique	M. Toma et al.	
15.40-15.50	Splenic injury – endovascular treatment vs surgical management	M. Popiel et al.	
15.50-16.00	Endovascular treatment of prostate adenoma	R. Nechifor	

<b>14.30-16.00</b>	<b>ISMRM chapter</b>	<b>V. Mihalache, G.D. Mateescu</b>	<b>Room 4</b>
14.30-14.45	The role of MR tractography in pre-surgical planning	B. Iliescu et al.	
14.45-15.05	Diffusion-weighted MR imaging in the abdominal and pelvic pathology: from theory to clinical applications	G.A. Popa et al.	
15.05-15.20	Brain meningioma evaluated using DCE-MRI compartment modeling	L. Fanea et al.	
15.20-15.30	MRI findings in a stage IIIc serous papillary cystadenocarcinoma of the ovary - pre and post neoadjuvant chemotherapy: a case report	M.T.A. Buzan et al.	
15.30-15.40	Studying Brain Aging Effects Using Diffusion Tensor Imaging	I. Serbu et al.	
15.40-16.00	Diffusion tensor imaging: implications for target volume delineation in high grade glioma radiotherapy	C. Chiricuta et al.	

<b>16.00-16.30</b>	<b>Coffee break</b>		
--------------------	---------------------	--	--

<b>16.30-18.00</b>	<b>MSK (SC)</b>	<b>V. Ene, R. Baz</b>	<b>Room 1</b>
16.30-16.45	Charcot`s arthropathy of the foot: MRI aspects	C.V. Salvan-Schaschl, B. Oberdabernig	
16.45-17.00	Aneurysmal bone cyst: report of three cases	D. Habu et al.	
17.00-17.20	Imaging diagnosis of bone tumors in pediatrics	B.S. Olteanu et al.	
17.20-17.40	MRI in the spondylar pathology	A. Santa	
17.40-18.00	Bone metastasis in pediatric pathology	D.M. Stoica et al.	

<b>16.30-18.00</b>	<b>Imaging of organ transplants (SC)</b>	<b>M. Buruian, R.A. Capsa</b>	<b>Room 2</b>
16.30-16.45	The role of CT and MRI in the diagnosis of collections after kidney transplantation	C. Medar et al.	
16.45-17.00	What a radiologist should know about renal graft pseudoaneurysms	O. Andrei et al.	
17.00-17.15	Diagnostic imaging and minimally invasive treatment of liver graft arterial thrombosis	A. Ghergus et al.	
17.15-17.30	Hepatic artery and portal vein pseudoaneurysm in patient with liver transplantation: imaging findings	M. Sebanescu et al.	
17.30-17.50	Endovascular treatment of arterial complications after hepatic transplant	R. Dumitru et al.	
17.50-18.00	Postoperative imaging in organ transplantation	C. Constantin et al.	

<b>16.30-18.00</b>	<b>Neuro &amp; Interventional Radiology (SC)</b>	<b>G. Iana, B. Popa</b>	<b>Room 3</b>
16.30-16.50	Incidents and accidents of the translumbar puncture "dos Santos", retrospective study	S. Sfrangeu	
16.50-17.05	Endovascular treatment of iatrogenic hemorrhages	C. Minoiu et al.	
17.05-17.20	Endovascular treatment of percutaneous nephrolithotomy hemorrhagic complication	A. Carp et al.	
17.20-17.30	Anatomical variants of the uterin artery emerging: angiographic aspects	D. Albulescu et al.	
17.30-17.45	Using pharmacologically active balloons (DEB) in the treatment of diabetic foot	M. Creteanu	
17.45-18.00	Benign liver tumors – interventional conservative treatment	C. Minoiu et al.	

<b>16.30-18.00</b>	<b>Varia (SC)</b>	<b>S. Ducea, M. Popescu</b>	<b>Room 4</b>
16.30-16.40	Imaging aspect of abdominal esophageal cancer	L. Cojocaru et al.	
16.40-16.50	Hepatocellular carcinoma - CT criteria and staging systems	C. Ursulescu et al.	
16.50-17.00	Early diagnosis of hepatocellular carcinoma	M. Irshad et al.	
17.00-17.10	Preliminary results regarding the benefit of multidetector computed tomography in pre-operative identification of left gastric vein topography among patients with gastric cancer	I. Halmaciu et al.	
17.10-17.20	Cholangiocarcinoma - A pictorial essay of CT appearances	A. Dohotariu et al.	
17.20-17.30	CT and MRI role in digestive fistulas evaluation	A.M. Calin et al.	
17.30-17.40	CT role in therapeutical options in abdominal and pelvic traumatic emergencies	I. Sava et al.	
17.40-17.50	Biliary varices – cause for common bile duct stenosis	C. Bar et al.	
17.50-18.00	The need of ALARA trained referrals	M. Pop et al.	

<b>19.30</b>	<b>Welcome dinner</b>		
--------------	-----------------------	--	--

### Saturday, October 12, 2013

<b>09.00-10.30</b>	<b>Curs interactiv privind erorile și dificultățile de diagnostic în radiologia și imagistica medicală</b>	<b>M. Buruian, S. Sfrangeu</b>	<b>Room 1</b>
--------------------	--	------------------------------------	---------------

<b>09.00-10.30</b>	<b>MRI</b>	<b>R. Baz, D. Cuzino</b>	<b>Room 2</b>
09.00-09.20	Accuracy, inter- and intraobserver variability of reviewed MRI screening compared with explantation results in Poly Implant Prothèse (PIP) Silicone Breast Implants	R.A. Manoliu	
09.20-09.35	3T MRI - opportunities and challenges for fetal and neonatal imaging	R. Popa-Stanila et al.	
09.35-09.55	MRI in uterine cancer staging	A. Santa	
09.55-10.10	MRI value in current gynecological practice	M.M. Duma et al.	
10.10-10.30	Diffusion imaging outside central nervous system	A. Santa	

<b>09.00-10.30</b>	<b>Imaging of abdominal vessels</b>	<b>D. Negru, M.C. Grasu</b>	<b>Room 3</b>
09.00-09.15	What should we know about CT angiography contribution of acute mesenteric ischemia	E.M. Preda et al.	
09.15-09.30	CT contribution in the management of chronic mesenteric ischemia	C.A. Nicolae et al.	
09.30-09.45	Signs of increased severity in abdominal aortic aneurysm - CT angiography and MR imaging aspects	C.I. Paltanea et al.	
09.45-10.00	Portal vein agenesis and portal cavernoma – imagistic aspects and literature review	O. Rizea et al.	
10.00-10.15	Primitive inferior vena cava tumors – imaging features	C. Scheau et al.	
10.15-10.30	Arterialised pancreatic pseudocysts – an imaging diagnosis within reach?	G.D. Arhire et al.	

<b>09.00-10.30</b>	<b>Breast implants and reconstruction – technical, clinical and imaging aspects</b>	<b>C. Ciortea, M. Lesaru</b>	<b>Room 4</b>
09.00-09.20	Complications in breast augmentation and reconstruction	C. Stingu et al.	
09.20-09.40	Breast implants – imaging examination protocols	A.I. Ciurea	
09.40-10.00	Imaging follow-up in breast reconstruction after mastectomy	M. Lesaru et al.	
10.00-10.30	Discussion and clinical cases		

<b>10.30-11.00</b>	<b>Coffee break</b>
--------------------	---------------------

<b>11.00-13.00</b>	<b>Elastography of soft tissues</b>	<b>S. Dudea, A. Santa</b>	<b>Room 1</b>
11.00-11.15	Ultrasound elastography – physical principles and current techniques	S. Dudea	
11.15-11.30	How useful and feasible are the elastographic methods in determining the liver stiffness	I. Sporea et al.	
11.30-11.45	Noninvasive assessment of diffuse liver diseases through dimensional transient elastography and ARFI technique	M. Platon Lupsor	
11.45-12.00	The role of echoendoscopic elastography in the diagnosis of digestive disease	S. Cazacu et al.	
12.00-12.15	Breast sonoelastography: technical considerations and benign disease	A.I. Ciurea	
12.15-12.30	Sonoelastographic appearances of malignant breast lesions: diagnostic tips and pearls through case based reviews	A.R. Chiorean	
12.30-12.40	Sonoelastography of superficial lymph nodes	L.M. Lenghel et al.	
12.40-12.47	Elastography of thyroid nodules	C. Botar Jid	
12.47-12.55	Musculoskeletal sonoelastography	C. Botar Jid	
12.55-13.00	Other applications. Closing remarks.	S. Dudea	

<b>11.00-13.00</b>	<b>Breast (SC)</b>	<b>M. Lesaru, A. Chiorean</b>	<b>Room 2</b>
11.00-11.20	Breast imaging aspects with surprising pathology result	A. Chiorean et al.	
11.20-11.35	Invasive lobular carcinoma: a diagnostic odyssey	A. Durutya et al.	
11.35-11.55	Imaging spectrum of breast focal mastopathic changes: mammography, conventional ultrasound, elastography and MRI appearances; pathology correlations and differential diagnosis	M. Duma et al.	
11.55-12.10	Breast metastasis from ovarian cancer: case series pictorial review	M. Florea et al.	
12.10-12.30	False positive and negative reports in breast pathology: cause, discussion and learning points – a short pictorial reviewed based on personal experiences	M. Duma et al.	
12.30-12.40	Case presentation - Eccrin hidradenoma of the breast	M. Buhociu et al.	
12.40-13.00	Medical Applications on Technological Siemens platforms	A. Santa	

<b>11.00-13.00</b>	<b>Imaging of the thorax</b>	<b>Z. Stoica, C. Zaharia</b>	<b>Room 3</b>
11.00-11.20	MR Angiography of pulmonary arteries (MRA) and MR Venography of the vena cava and whole body veins including legs (MRV) in the diagnosis of thromboembolic disease (VTE)	C.V. Salvan-Schaschl et al.	
11.20-11.40	Radio-imagistic features of normal and pathologic lung hilum	M. Popescu et al.	
11.40-12.00	Radio-imaging findings in pulmonary atresia and Fallot tetralogy	S. Manole et al.	
12.00-12.10	Type A aortic arch interruption associated with sacular aneurysm of the descending aorta in a 54 years patient: MDCT imaging - case report	A.R. Sorega et al.	
12.10-12.20	Primary pericardial synovial sarcoma: peculiarities of a case report with favorable long-term outcome	S. Manole et al.	
12.20-12.30	Post-traumatic parietal externalization of an oligosymptomatic encysted pleurisy in a patient with Fallot Tetralogy	C. Stroie et al.	
12.30-13.00	Company presentation		

<b>13.00-14.30</b>	<b>Lunch</b>
--------------------	--------------

<b>14.30-16.00</b>	<b>Fusion imaging</b>	<b>G. Andries</b>	<b>Room 1</b>
14.30-14.45	HYBRID IMAGING. A new imaging technology or a new specialty?	G. Andries et al.	
14.45-15.00	Added value of SPECT/CT fusion in assessing suspected bone metastasis	M. Mereuta et al.	
15.00-15.15	The role of fusion imaging in detecting in situ breast cancer	E. Barbus et al.	
15.15-15.30	Novelties in the diagnosis and follow-up of thyroid cancer - NCCN 2013 updates	A. Pavel et al.	
15.30-15.45	SPECT/CT Hybrid Imaging in Hyperparathyroidism	A. Chirila et al.	
15.45-16.00	NET overview	D. Picu	

<b>14.30-16.00</b>	<b>MRI (SC)</b>	<b>S. Dudea, F. Birsasteanu</b>	<b>Room 2</b>
14.40-14.45	MRI features of autoimmune pancreatitis - an uncommon type of chronic pancreatitis	D. Feur et al.	
14.45-14.55	A case report of brainstem abscess: a practical approach to imaging diagnosis	C. Tudorache et al.	
14.55-15.10	Acquired metabolic leukoencephalopathies – case presentation	A. Tutelca et al.	
15.10-15.25	Slow infusion DCE-MRI in the evaluation of cerebral meningioma	G.M. Rusu et al.	
15.25-16.00	The Iceberg of MRI: “From the perfect order of 1946 to the chaos of 2013”	G. Mateescu et al.	

<b>14.30-16.00</b>	<b>Imaging of vessels (SC)</b>	<b>M. Pascut, M. Popescu</b>	<b>Room 3</b>
14.30-14.40	CT features of aortic dissection	C. Avasioaie et al.	
14.40-14.55	64-slice CT coronary angiography - our experience	C. Niscoveanu et al.	
14.55-15.10	Cardio-pericardic masses: imaging aspects, diagnostic algorithm and contribution to therapy planning	S. Manole et al.	
15.10-15.20	MDCT evaluation of left-sided cardiac valves: comparison with transthoracic echocardiography	C. Niscoveanu et al.	
15.20-15.30	Current and particular imaging aspects of the superior mesenteric vein's pathologies	O. Alnuaimi et al.	
15.30-15.45	Preliminary study about inferior vena cava malformations: particular aspects and imaging findings	M. Dobra et al.	
15.45-16.00	Peripheral CT Angiography in atherosclerotic disease	M. Moale et al.	

<b>14.30-16.00</b>	<b>Radiographers</b>	<b>C. Zaharia, G. Goldis</b>	<b>Room 4</b>
14.30-15.00	International Society of Radiographers and Radiological Technologists	P. Gerson	
15.00-15.20	Diffusion-weighted MR imaging in brain tumor	C. Mironescu et al.	
15.20-16.00	Company presentation		

<b>16.00-16.30</b>	<b>Coffee break</b>
--------------------	---------------------

<b>16.30-18.30</b>	<b>Plenary session – invited lectures</b>	<b>I.G. Lupescu, G. Iana</b>	<b>Room 1</b>
16.30-16.50	Global management of patient radiation protection	G. Frija	
16.50-17.10	The role of medical imaging in personalized medicine	G.P. Krestin	
17.10-17.30	RECIST criteria in liver metastases	Y. Menu	
17.30-17.50	MDCT of abdominal injuries	A. Palkó	
17.50-18.10	Un siècle de rayonnement de la radiologie et de l'imagerie medicale	M. Bellet	
18.10-18.30	Final discussion		

<b>18.45-19.15</b>	<b>General assembly of SRIM</b>
--------------------	---------------------------------

**Sunday, October 13, 2013**

<b>09.00-10.30</b>	<b>Clinical cases</b>	<b>A. Santa, V. Popita</b>	<b>Room 1</b>
09.00-09.10	Tepes redivivus: now with CT	D. Amaranucaei et al.	
09.10-09.25	Pseudotumoral myositis osificans following aortic dissection: imaging aspects with physiopathology correlation	S. Manole et al.	
09.25-09.40	Facial mucormycosis - case report	M. Sandu	
09.40-09.50	Central pontine myelinosis - a unique entity: case report	C. Niscoveanu et al.	
09.50-10.00	Rare breast lesion: primary desmoid tumor (extraabdominal fibromatosis) of the breast in a male – case report	R. Cramariuc et al.	
10.00-10.30	Clinical cases	A. Santa	

<b>09.00-10.30</b>	<b>Oncologic imaging of the male pelvis</b>	<b>D. Negru, V. Ene</b>	<b>Room 2</b>
09.00-9.20	The apparent diffusion coefficient (ADC) ratio: can it be used as an adjuvant tool for prostate cancer assessment of tumor aggressiveness?	A. Lebovici et al.	
09.20-09.40	MRI evaluation of recurrent prostatic adenocarcinoma	S. Dunarintu et al.	
09.40-09.50	Discussions		
09.50-10.30	Company presentation		

<b>09.00-10.30</b>	<b>Pediatric imaging</b>	<b>M. Coman, B. Olteanu</b>	<b>Room 3</b>
09.00-09.15	Correlations between imaging and surgical findings in children with upper gastro-intestinal tract malformations	D. Georgescu et al.	
09.15-09.30	The role of ultrasonography in appendicitis in children	M. Cosarca et al.	
09.30-09.45	Spectrum of findings in inflammatory bowel disease by MR enterography in pediatric population - CHEO experience	C. Rotaru	
09.45-10.00	Misleading appearance of barium enema reduction of intussusception: considerations on the complementary role of ultrasound	C. Stroie et al.	
10.00-10.15	Indications for CT examination in the evaluation of children with congenital heart disease (CHD)	V. Marcu et al.	
10.15-10.30	Management of pediatric patients with pulmonary post surgery illness	M. Coman et al.	

<b>09.00-10.30</b>	<b>Miscellaneous (SC) – Oral presentation of selected posters</b>	<b>S. Ducea, R. Baz</b>	<b>Room 4</b>
--------------------	---	-------------------------	---------------

<b>10.30-11.00</b>	<b>Coffee break</b>	
<b>11.00-12.30</b>	<b>SRIM - plenary session</b>	<b>Room 1</b>
<b>12.30-13.00</b>	<b>Awards session. Closing session.</b>	<b>Room 1</b>

## **POSTERS**

1. The interest of conventional radiography in detection of developmental hip dysplasia – A.C. Badiu et al.
2. Imaging findings of congenital thoracic disorders – E. Buzgau et al.
3. Radiological and imaging aspects in pulmonary tuberculosis – G. Catargiu
4. Femoral artery pseudoaneurysm: a differential diagnostic problem? – S. Chiriac et al.
5. Anomalie de vena cava inferioara in segmentul infrarenal – M.L. Dinescu
6. The Angio-MDCT evaluation in multiple peripheral arterial aneurysms – A. Dragulin et al.
7. Imaging of cystic partially differentiated nephroblastoma: case report – D.I. Fenesan et al.
8. Imaging splenic metastasis in a patient with malignant melanoma – D.I. Fenesan et al.
9. Gallbladder ileus. Radioimagic aspects based on two clinical cases. – M. Gersak et al.
10. Virtual palpation model combining spiral CT and elastography data in HCC diagnosis – I.A. Gheonea et al.
11. The x-ray, an instrument for assessment of the quality of life in the elderly – M. Gilie
12. Imaging aspects in chronic renal failure in pediatric patients – L. Ionescu et al.
13. Case study: osteosarcoma (OS) of the ilium with bone metastases – C.M. Marinescu
14. Cystic adventitial disease of the popliteal artery: report on a rare case of intermittent claudication in young patient – B. Serban et al.
15. The diagnostic accuracy of Angio-CT in ruptured brain aneurysms – A.R. Sorega et al.
16. Ewing's sarcoma at children - case study – V. Stefanescu et al.
17. CHEAT treated hepatocellular carcinoma: CT aspect before and after embolization – R. Tanasa et al.
18. Vein of Galen Aneurysm - case report – A.M. Ungureanu et al.
